

# Onnemi International Ministries

## GARRETT SOCCER TEAM

Our soccer goals and basket hoops have been put to great use! We recently received a \$500 dollar donation from a previous middle school student of Ken Hanna's, who just wanted to help out in some way.

Needless to say, Garrett has now sponsored a soccer team and purchased new shoes for the boys! They have been playing several games and are excited to have our logo on their shirts and are learning what it means to represent us, but most of all represent Christ in it all. Thank you Garret!!

## SERGIO

Recently we have approached a young man in the community who has some Bible training and is interested in co-pastoring with us on Sunday services. We are praying for an additional increase in funding so that we will be able to do this in a stable way. We have decided to move forward knowing that God will provide; we have but to wait and be amazed at how He does it! This young man currently works at a local factory six days a week, twelve hour days and makes \$900 pesos. This roughly comes out to about fifty-two (52) dollars a week. We have spoken with him about us paying him the same amount and having him spend time preparing for sermons, doing home visitations and possibly teaching a class at the community center. Would you be praying with us in this direction? He is a hard working man and is very willing to be a blessing to the community.

## NEW BUILDING AND EXPANSION

Onnemi International Ministries has been working alongside Portage Community Chapel to build a 6400 Square foot building at our community center. The first floor of the building will be used for computer classes, church services, and sewing classes. The second floor will be a series of classrooms which will be used for Sunday school on Sundays and school classes throughout the week.

We already have guitar classes, sports, tutoring, arts and crafts, as well as elementary, middle school, and high school accreditation classes (ICHEA) and have maxed out our usable space in our current buildings. We have taken a step of faith and begun to hire teachers and staff for the community center. But that means we have no funding available to continue work on our new building.

We have already invested over \$11,000.00 in laying the foundation and stick framing the first floor and need to raise an additional \$12,000.00 to stick frame the second floor and simultaneously protect the structure by completing the roof before July 1st.

Please prayerfully consider how you could contribute to this project and turn our crisis of faith into a celebration of the work the Lord continues to do through this ministry.

## KIKA

Kika is one of the ladies that lives in our community. She actually lives across the street from the ministry center and has a wealth of practical knowledge and also spiritual knowledge. She is pictured in the center with the green shirt and glasses and is in the middle of teaching an arts and crafts class to a group of ladies. She is also a retired professional seamstress. Her goal is to teach women how to sew and how to make salable crafts that they can then use as an aide to the financial dilemma many of

these families find themselves in. She has been a true blessing from the Lord!!
